

Mogere Rubil

Software Engineer | Full-Stack Developer

📍 Nairobi, Kenya | ✉️ mogererubil@gmail.com | ☎️ +254 752 872 233
[github](#)

Skills

Languages: JavaScript, Python, C# ,kotlin

Frontend: Tailwind CSS, HTML5, CSS3

Backend: Node.js, Django, Express.js, RESTful APIs

Databases: MongoDB, Firebase, MySQL

Tools: Git, VS Code, Figma.

Other: Cloud Integration, API Design, Open Source Contribution, System Optimization

Featured Projects

Check-In App

Developed an employee attendance system powered by QR code scanning, improving check-in efficiency and tracking accuracy.

Movie Ticket Booking Platform

Built an interactive JavaScript-based ticketing application with a focus on user-friendly design and seamless seat selection.

Moghe Empire

Created a dynamic movie search application leveraging the OMDb API, enabling real-time search and detailed movie information retrieval.

Experience

Software Engineer Intern **2024**

- Designed and implemented a real-time data processing solution, significantly improving reporting workflows.
- Automated internal processes to optimize efficiency and reduce repetitive tasks.
- Provided technical support, system upgrades, and optimizations to critical internal platforms.

Open-Source Contributor **2021- present**

- Merged over 50 pull requests across multiple public repositories, enhancing project functionality, documentation, and user experience.

- Specialized in frontend optimizations, bug fixes, and collaborative feature development with global teams.

Education

Bachelor of Science in Information Technology [2021-2024](#)
Zetech University

Software engineering (ongoing)

Moringa school

Additional Information

- Fluent in English and kiswahili.
- Active participant in developer communities and hackathons.
- Focused on scalable architectures, clean code practices, and impactful problem-solving.
